

Offsider — Welcome Emails

Onboarding & lifecycle sequence

03 June 2026

The lifecycle emails for a new Offsider client — from signup to live to advocate. Human tone, NZ, one clear next step each. Send from a real person (Logan), plain text.

Email 1 — Welcome (immediately after signup / deposit)

Subject: You're in, [first name] — here's what happens next

Welcome aboard, [first name]. Offsider's going to start catching the calls, quotes and invoices you've been losing — but first, a quick setup.

Three things I'll need on our call (15 min):

1. Access to forward your business number
2. Your Xero (or MYOB) login
3. How you talk + your rough pricing

Grab a time here: [booking link]. We'll have you live within the week.

— Logan

Email 2 — Setup booked / pre-call (after they book)

Subject: Quick prep for Thursday

Cheers [first name] — locked in for [day/time]. Nothing to prepare, but if you can have your Xero login handy and a rough idea of your standard job prices, we'll fly through it.

On the call I'll show you Offsider answering a test call live, so you'll see exactly how it sounds before it talks to a single customer.

— Logan

Email 3 — You're live (day of go-live)

Subject: Offsider's on. 🎧

[first name] — you're live. From now:

- Miss a call → Offsider texts them back in under a minute, in your voice
- Job done → invoice drafted + synced to Xero
- Each morning → a two-minute digest of everything it did

That digest is the only thing you need to check. Read every thread anytime, and jump in whenever you want.

I'll check in at the end of week one. Go get on the tools.

— Logan

Email 4 — First-week check-in (day 7)

Subject: First week — here's what Offsider did

[first name], one week in. So far Offsider has:

- Caught **[X] missed calls** → **[Y] booked**
- Sent **[Z] invoices** (avg [N]h after the job)
- Recovered roughly **[\$[amount]]**

Anything sound off in the replies? Tell me and I'll tune the tone. Otherwise — it's just going to keep doing this.

— Logan

Email 5 — Monthly value report (ongoing, day 30+)

Subject: Your month with Offsider — **[\$[amount]]** recovered

[first name], your month in numbers:

- **[\$[amount]]** recovered (jobs caught + faster invoicing)
- **[X]** jobs booked from missed calls
- **[Y]** dead quotes revived
- Avg rating now **[4.9★]** from auto review requests

That's [N]× what Offsider costs you. Keep it cooking.

P.S. Know another tradie drowning in calls? Send them my way — I'll sort them out and there's a month on us for you both.

— Logan

Notes

- Personalise the numbers from the dashboard — real figures are the whole point.
- Keep it plain-text and short; tradies read on their phone between jobs.
- Email 5 doubles as your referral engine — the value report is the natural moment to ask.
- Comply with UEMA: clear sender, easy unsubscribe on any marketing sends.
